SECTORAL WORKING PAPERS

In the course of the work on major sectoral studies carried out by UNIDO's Division for Industrial Studies, several working papers are produced by the secretariat and by outside experts. Selected papers that are believed to be of interest to a wider audience are presented in the Sectoral Working Papers series. These papers are more exploratory and tentative than the sectoral studies. They are therefore subject to revision and modification before being incorporated into the sectoral studies.

This document has been reproduced without formal editing.

The designations employed and the presentation of material in this document do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area of its authorities, or concerning the delimitation of its frontiers or boundaries. Mention of firm names and commercial products does not imply the endorsement of the United Nations.

This paper was prepared by John F. Brotchie, UNIDO consultant, as a contribution to the First World-wide Study of the Wood and Wood Processing Industries. The views expressed do not necessarily reflect the views of the UNIDO secretariat.
